

VIRAJ BANSAL

Electrical & Electronics Engineer | Entrepreneur | Industrial Executive

Email: viraj.bansal@vanseleetroengineerings.com | Phone: +91 9999902200

Location: South Delhi, India

EXECUTIVE SUMMARY

Dynamic entrepreneur and business management professional with over 6 years of leadership experience across railway infrastructure, switchgear manufacturing, vacuum circuit breaker production, foundry operations, engineering diagnostics, and industrial business management. Currently holds key directorship and executive roles across multiple enterprises within the Hotspot Group, overseeing corporate business strategy, plant operations, global market expansion, and internal marketing. A published author in Engineering Management, committed to driving technology-led manufacturing, robust supply chains, and organizational excellence.

CORE SECTORAL EXPERTISE & CAPABILITIES

Railway Infrastructure & Electrification

- 2x25 kV Railway Electrification & Traction Power Distribution
- Vacuum Circuit Breakers (VCBs) & Switchgear Solutions
- Railway Rolling Stock Components & Predictive Maintenance
- Engineering Diagnostics for Indian Railways & Allied Sectors

Advanced Manufacturing & Operations

- Class-A Foundry Operations (Up to 450 MT/Month Capacity)
- Green Sand & No-Bake Sand Technologies for Castings
- Cast Iron, SG Iron (Ductile Iron), and Alloy Steel Components
- Export-Oriented Products, Trade, & Corporate Governance

LEADERSHIP & PROFESSIONAL EXPERIENCE

Vans Electroengineerings Limited

Joint Managing Director (Since June 2026) | Director (August 2024 – Present)

- Spearheads corporate strategy, operations, and governance across key business divisions including Sales & Marketing, Finance, Supply Chain Management (SCM), Logistics, and Legal functions.
- Drives manufacturing and technical innovation for specialized 2x25 kV Vacuum Circuit Breakers (VCBs) and advanced power distribution protection systems for railway traction.
- Fosters strategic technology partnerships, product commercialization, and expansion across domestic and international infrastructure markets.

Avadh Technometals Private Limited

Director - Chief Executive Officer (February 2023 – Present)

- Managed complete operations and strategic expansion of a state-of-the-art Class-A foundry facility in Haridwar, producing up to 450 MT/month of precision-engineered components.
- Led production of critical coach and locomotive castings supplied directly to Indian Railways, defense, automotive, and heavy industrial sectors.
- Promoted technology-driven manufacturing utilizing advanced testing laboratories, pattern development, and simulation-based process engineering.

Hotspot Infodot Private Limited

VP-Marketing (Since April 2020) | Director (2016 – 2017) | June 2016 – Present

- Oversees comprehensive marketing strategy, brand positioning, client relationship management, and sales growth initiatives across group enterprises.

EDUCATION & OTHER DIRECTORSHIPS

Education & Qualifications

- **M.Sc. in Engineering Business Management**
University of Warwick, UK (2021)
- **B.Tech. in Electrical & Electronics Engineering**
Vellore Institute of Technology (VIT), India (2020)

Other Directorships

- Infowin Electric Private Limited
- Ductus Infodot Private Limited
