

Indian Engineering & Manufacturing Enterprises

Directory & Technical Profile Summary — Corporate & Website Reference

1. Novius Technologies India Pvt. Ltd.

Rail Safety & Condition Monitoring

Website Domain: www.novius.co.in (Associated: Novius Railtech)

Registered Office: PCNTDA Moshi, Pune, Maharashtra - 412105, India

Core Specialization: Development and manufacturing of condition-based monitoring systems and rail safety solutions.

Overview & Capabilities

Novius Technologies India (operating brand Novius Railtech) specializes in technology-driven engineering for railway infrastructure. The firm designs state-of-the-art diagnostic and safety equipment aimed at minimizing rail accidents, improving track and rolling stock reliability, and delivering automated monitoring systems.

2. Avadh Technometals Pvt. Ltd.

Advanced Metal Castings & Machining

Official Website: www.avadhtechnometals.com

Plant & HQ Location: Plot No. 21-22, Sector 8B, IIE SIDCUL, Haridwar, Uttarakhand - 249403, India

Core Industries Served: Defense, Indian Railways, Automobile, Heavy Engineering

Overview & Capabilities

Part of the Avadh Rail Infra Group, Avadh Technometals is an advanced manufacturing firm offering high-precision Green & No-Bake Sand Metal Castings up to 200 kg single piece (450 Tonnes monthly capacity). Facilities include Omega Sinto No-Bake line, Inductotherm furnaces, CMM testing, CNC VTL/VMC machining, and ProCAST simulation.

3. VANS Electroengineerings

Electrical Switchgear & Railway Electrification

Official Website: www.vanselectroengineerings.com

Manufacturing Units: Salem (Tamil Nadu) & Lucknow (Uttar Pradesh), India

Core Specialization: Vacuum Circuit Breakers (VCBs) & Vacuum Interrupters (VIs) for 25kV / 2x25kV Railway Traction

Overview & Capabilities

VANS Electroengineerings is a pioneer in power distribution switchgear. It holds approval under IEC 62505-1 standards for railway electrification switchgear, delivering high-voltage sectioning, feeding, and bridging interrupters for heavy-duty industrial and traction power grids.

4. Atlantic Tradeengineers LLP

Industrial Equipment & Precision Engineering

Corporate Registry: LLPIN: AAY-6021 (RoC Kanpur, Incorporated Sep 2021)

Registered Office: B 12, Industrial Area, Opposite Amausi Airport, Lucknow, Uttar Pradesh, India

Core Activity: Manufacturing & trading of precision machinery, optical/medical instruments, and industrial components.

Overview & Capabilities

Atlantic Tradeengineers LLP engages in custom fabrication, precision instrument assembly, and mechanical engineering solutions. The firm supports industrial supply chains across Northern India with machinery supply and structural engineering support.

5. Pullman Engineering Co. Pvt. Ltd.

Material Handling Equipment & Heavy Winches

Official Website: www.pullman.in

Head Office: Kolkata, West Bengal, India (Established 1965 | ISO 9001:2015)

Primary Product Line: Winches, E.O.T. Cranes, Grab Buckets, Mobile Cranes, Pile Drilling Plants

Overview & Capabilities

With nearly six decades of expertise, Pullman Engineering is one of India's oldest premier manufacturers of heavy-duty material handling systems. Key equipment includes Electric Single/Double Drum Winches, Diesel Winches, Under Slung Cranes, and Heavy Girder Overhead Cranes.

6. Primax Group (Primax Engineers / Equipment)

Industrial Polymers, Polymer Seals & Construction Machinery

- Official Websites:** www.primaxengineers.com (Polymers)
www.primaxequipment.com (Construction Machinery)
- Primary Locations:** Kolkata & Howrah (West Bengal), India
- Core Product Lines:** Pneumatic/Hydraulic Polymer Seals, PTFE/Viton/PU Components, Concrete Mixers, Batching Plants

Overview & Capabilities

Primax operates in two major engineering domains: **Primax Engineers Pvt. Ltd.** focuses on high-performance elastomeric seals, PTFE components, and import-substitution polymer parts for steel, defense, and mining. **Primax Equipment Pvt. Ltd.** (Est. 1978) manufactures concrete batching plants, mixers, and scaffolding systems for civil construction.
